

Dear John,

I hope you're doing well! I wanted to give you a quick update on your website design.

Prototype :

We planed the home page, contact page and about your story page, and also made three pages in HTML as much as possible. The following is the progress of these three pages.

Home Page:

The homepage is set up with a clean, sleek layout, featuring the "Car of the Week" and easy navigation to the other sections.

About Page:

I've written a longer version of your story that highlights your passion for cars and adds your signature humor to make it personal and engaging.

Contact Page:

There's a simple inquiry form in place so people can easily get in touch with you, and a google map section to find where the garage is.

Let me know what you think so far! I'm happy to make any adjustments before moving forward with the design styling.

Best regards,
Kaixin, Harry, Milan
